

2-day Programme – Pelvic Floor Imaging workshop

Day 1 AM 9th April

Registration 8.30 - 9:00

Welcome 9:00- 9:10

9:10-9.25 Anatomy & physiology of the pelvic floor

9.20- 9:40 Spectrum of pelvic floor disorders and non-imaging investigations

9:40- 10:-00- MRI of the pelvic floor- patient and study preparation

10:00-10:20- MRI of the pelvic floor – what to report

10.20 -11.00- Comprehensive ultrasound of the pelvic floor (transperineal, endovaginal)

11.00 -11.20 coffee break

11.20 -12:00 Demonstration: Pelvic floor ultrasound

Lunch 12.15 -13.00

Day 1 PM

13:00- 13:30- Role of fluoro defecography in ODS

13:30-15:00 Demonstration- Fluoro proctogram and hands- on cases on the workstations (MRI, fluoroproctogram, US)

Break 15:00-15:20

15:20 – 17:00 Mock MDT discussion – presentation, management, investigations, imaging, outcome (multidisciplinary team of- urogynaecologists, colorectal surgeons, radiologists, APRs, SN)

Course dinner 18:00

Day 2 AM 10th April

9:30- 10:00 Anatomy of the anal canal and basics of endoanal US

10:00- 10:30 – OASI- gynae perspective

Break 10:30 -10:50

10:50 – 11:20 Imaging of faecal Incontinence with interactive cases

11:20- 11.50 Imaging of fistulae

11.50 - 12:20 – Colorectal perspective

Lunch 12:20 – 13:00

Day 2 PM

13:00 – 13:30 Navigating the barium issue

13:30 – 14:15 Setting up a pelvic floor imaging service – PGD, SOP

Break 14:15 – 14:35

14:35- 14:50- Imaging of suburethral masses

14:50- 15:10- Post-surgical imaging

15:10– 16:30 Open session – questions, discussion, case review

16:30 Course end and farewell
