

9th and 10th April 2025

# **UHNM PELVIC FLOOR IMAGING WORKSHOP**

Profondità: 3 cm  
Frequenza: 12 MHz  
Brightness: 127  
Contrast: 255  
Serial: 7039  
Origin: live

**Comprehensive study event focused on imaging of the pelvic floor**

This event is designed to enhance skills across all pelvic floor imaging modalities, including fluoroscopy, MRI and ultrasound, catering to both novices and more experienced professionals.

The two-day course programme will provide a comprehensive overview of pelvic floor disorders, offering a global perspective on conditions such as cystoceles, rectocele, obstructed defaecation, urinary and anal incontinence, and obstetric injuries.

Scheduled activities include live demonstrations and multidisciplinary case discussions.

The faculty features local specialists in pelvic floor imaging, as well as a clinical team including gynaecologists, urogynaecologists and colorectal surgeons.

**Hosted by Midlands Imaging Training Academy**

Postgraduate Medical Centre,  
Weston Road, Stafford ST16 3SA

Price- £300
